IB SL Juniors

Welcome to IB History! Next year in IB History half of the class will be seniors who took AP US History and half will be juniors who have not studied US History yet so in order for the juniors to be prepared for IB History they need to have a little bit of background in US History. In IB History we will be focusing on major world events of the 21st century such as the World Wars from a global perspective. The United States is one of the key countries involved in the events that we will learn about however the United States was not always a world power. For your summer assignment you will be studying how the United States began as a country that wanted to separate itself from Europe and remain isolated but then changed overtime to become more internationally involved. I have chosen 6 events in US History that show the progression of US international involvement. For each event you will watch a short video about the event and answer questions about the video. Please make your own copy of the Google Doc and type your answers into the document keeping my exact formatting. You will need to submit this assignment to Google Classroom by Monday August 1st at 8am which is a week before school starts. Here is the class code for our Google Classroom dhc2npu . During the first week of school, you will be asked to use the information from this assignment to complete a written assessment. If you have any questions please feel free to email me over the summer at lrarnold@wvusd.org however I will not be checking my email from May 27-July 25.
